Self-Learning Control of Tool Temperature in Cutting Processes

Deliverable: D2.2B
Simulation Model and Results for
Heat Flow in the Cooling Device

Due date of deliverable: 30/10/2011
Actual submission date: 27/10/2011

Lead beneficiary: Brunel University
Corresponding WP: WP2

Revision: B

Dissemination level		
PU	Public	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	X

Frame: Self-Learning Control of Tool Temperature in Cutting Processes
Grant agreement no.: CP-FP 228585-2

Project co-funded by the European Commission within the Seventh Framework Programme (2009-2012)
